

Dailem Corzo

Running for Region 4 Director

In the interest of perspective of who I am as a person/ Police Officer, I offer the following as a summary of my personal life. I was born in Chicago, IL in the year 1990 my mother immigrated from Mexico in order to provide better opportunities for her future family. Within three years of arriving, she became pregnant, I became the first generation American in my family and subsequently the first college graduate in my family. By the time I was 2 years old, my mother once again uprooted and moved to Houston, TX where I have spent a greater part of my life.

I had the opportunity to live overseas for several years in South America and traveled abroad extensively Russia, Egypt, El Salvador, amongst many more this has allowed me to have a different perspective of the day-to-day life of people outside of what we are typically exposed to in our day-to-day work and home life. I firmly believe this has provided me a unique capacity allowing for better communication in my job with citizens as a police officer.

I am fortunate to be the mother of 2, a boy and a girl, my interests and hobbies include, nutrition, physical fitness, food enthusiast, I work very diligently to continuously expand my horizons, from being a sports car enthusiast to pursuing modeling, being an advocate for immigrants and to top it off as my family would say an organizational junkie. I am highly motivated and energetic, always looking for ways to participate in my community and expanding my duties as a police officer to grow my career and personal exposure.

I am interested in representing Texas Association of School Resource Officers (TASRO) as their regional co-director for region 4 to contribute towards the organization through dedicated service. To perform this role, I would make sure to use my organizational experience to execute all required tasks while keeping all lines of communication open with the team as a way to efficiently achieve our goals. As a representative for our organization, I would be sure to keep a good relationship with my peers, the community, private sector, and other pertinent organizations to address any agendas we have.
